

GOVERNMENT

Learn how our customer in the government sector has benefitted from implementation of JOS Automation solution.

Challenges Faced

Requirement to migrate employee emails to the new system quickly. Initial estimation of 6 months is required for their employees to manually facilitate the migration, hence they needed a quicker alternative.

Solutions Implemented

Implemented Robotic Process Automation (RPA) to mimic the human interaction of manually migrating the emails to the new system. There are zero errors made during the migration based on the rules set by the users.

Results Achieved

Completed the email migration in 1 month at fraction of the costs if a human were tasked with the job. Increased productivity as employees are able to spend their time on tasks with higher value.
